

# HE IS RISEN

Dear TSF Church,

This Easter, Christians around the world will celebrate the day with the remarkable proclamation that Christ has risen from the dead.

But for many, the resurrection of Jesus is merely a fable or fabrication. Believing it requires surrendering your intellect and rationality. It's heresy, not history.

The truth is the Christian faith hangs on the life, death and resurrection of Jesus. As the Apostle Paul wrote, if Jesus is not risen from the dead "we are among all men most to be pitied." What great good news it is, then, that Jesus did indeed rise, that the resurrection is real, that living, breathing people witnessed it and testified to it. That subjected to standards of historicity, the resurrection holds its own.

Faith is required, yes. But not a blind leap of faith opposing your reason.

This year, we want to share a recent Search Podcast featuring our VP of Field Operations Blaine Larsen and Josh Horton from Search Fort Worth. It explores common misconceptions about the resurrection and makes the case for our faith in it.

We hope it enriches your Easter experience. And please feel free to share it with friends who might want to know more about the event that changed the world.
